Fred Pasqua
Web Developer

Creative, collaborative, and curious developer looking to partner with a world class organization to deliver elegant and useful products to end users.

Experience

2012 - current
Educational Sales and Web Marketing *NEMC*
Developed website content, blog posts and product descriptions
Designed, resized, and manipulated digital images for website
Deployed landing pages using HTML and CSS
Delivered sales presentations to large groups of parents
Partnered with educators to build and promote their program
Managed a large book of repair and rental business
Met and exceeded company goals year over year
Trained new employees on software and processes
Planned, promoted, and executed workshops for clients

2021-2022
Full Stack Web Development Bootcamp
Worked with a mentor and tutor in the web development industry while learning JavaScript, React, React Native, Node.js, Mongo DB, Express, OAuth2, proper documentation and commenting, APIs, unit and integration testing and version control. The project-based curriculum allowed for ample opportunities to learn frameworks and face real-world problems including debugging and refactoring code, problem solving, using developer tools and the deployment of websites and apps.

2021-2022
Crestcom Leadership Training Graduate
Crestcom management training is a 12-month, 24 module course for managers which covers topics related to managing teams, talent management best practices, accelerating innovation, swot analysis, delegating and many other topics. I used the teachings in each module to develop action plans which included growing online sales, working with the sales team to develop and design new website features and to enhance other key areas of the business.
